1 litre

DIRECTIONS FOR USE:

Add a small quantity of water to a suitable compression sprayer and then add product according to the table below. Add the remainder of the water, close the sprayer securely, shake to mix contents. Pressurise according to the sprayer manufacturer's instructions.

One litre of ready-for-use spray treats 20 square metres of surface. Make up the spray as required.

Do not store spray overnight.

APPLICATION GUIDELINES :

Target Pest	Product	Water	Comments	
CRAWLING INSECTS	Routine Treatment	25ml	5 Litres	Maintenance or "spot" treatment
	Heavy Infestation	50ml	5 Litres	Attack or "clean-out" treatment
FLYING INSECTS	Routine Treatment	25ml	5 Litres	For the control of "resting insects"

Apply as a low pressure spray. Some surfaces will absorb more spray, e.g. wall-paper, fabric or brickwork, but shiny surfaces can allow spray to 'run off'.
Bed-bugs: Apply spray to insect harbourages and resting places on bed-frames, head-boards and to cracks and crevices around or near the sleeping area. Pay special attention to any loose wall coverings near the sleeping area and to cracks and crevices in bedroom fittings and furniture. Treat under loose-lay carpeting and around door-frames, picture frames and wall cupboards etc.

Cockroaches, Silverfish and Firebrats: Apply to areas where insects are found, e.g. skirting boards, storage areas, around water pipes, door frames, window frames, around & behind refrigerators, cabinets, sinks, stoves and the underside of drawers and shelves and to cracks and crevices behind wall-mounted units or fixtures.

Ants: Spray 'trails' around doors/ windows or where ants are seen.

Fleas: Prior to treatment, thoroughly vacuum the area and seal the contents of the vacuum bag before disposal in the refuse. Apply spray to carpets and soft furnishings, including the underside of cushions and to areas regularly occupied by domestic animals.

STATUTORY CONDITIONS OF USE:

Maximum Dose, 50 ml per 5 litres water per 100 square metres sprayable surface. Engineering control of operator exposure must be used where reasonably practicable in addition to the following items of personal protective equipment. WEAR SUITABLE PROTECTIVE CLOTHING (COVERALLS) AND SYNTHETIC RUBBER/PVC GLOVES when using. AVOID EXCESSIVE CONTAMINATION OF COVERALLS AND LAUNDRY REGULARLY. DO NOT BREATHE THE SPRAY MIST. Otherwise wear respiratory protective equipment and eye protection. DO NOT CONTAMINATE FOODSTUFFS, EATING UTENSILS OR FOOD CONTACT SURFACES. COVER WATER STORAGE TANKS before application. THIS MATERIAL AND ITS CONTAINER must be disposed of in a safe way. FOR INDOOR USE ONLY. UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM THE TREATED AREAS UNTIL SURFACES ARE DRY. DO NOT APPLY DIRECTLY TO ANIMALS. EXTREMELY DANGEROUS TO FISH AND OTHER AQUATIC LIFE. REMOVE OR COVER FISH TANKS AND BOWLS before application. DO NOT APPLY TO CLOTHING OR BEDDING. SPRAY ONLY ONTO SURFACES. READ ALL PRECAUTIONS BEFORE USE.
